
Iron Overload, Public Health, and Genetics

INTRODUCTION		SCREENING	
Introduction to Supplement on Iron Overload, Public Health, and Genetics	923	Prevalence of Hereditary Hemochromatosis in 16 031 Primary Care Patients	954
<i>A.L. Franks and J.S. Marks</i>		<i>P.D. Phatak, R.L. Sham, R.F. Raubertas, K. Dunnigan, M.T. O'Leary, C. Braggins, and J.D. Cappuccio</i>	
DIAGNOSIS AND MANAGEMENT		Screening for Hemochromatosis in Primary Care Settings	962
Diagnosis of Hemochromatosis	925	<i>S.M. McDonnell, P.D. Phatak, V. Felitti, A. Hover, and G.D. McLaren</i>	
<i>L.W. Powell, D.K. George, S.M. McDonnell, and K.V. Kowdley</i>		Iron Overload, Public Health, and Genetics: Evaluating the Evidence for Hemochromatosis Screening	971
Management of Hemochromatosis	932	<i>M.E. Cogswell, S.M. McDonnell, M.J. Khoury, A.L. Franks, W. Burke, and G. Brittenham</i>	
<i>J.C. Barton, S.M. McDonnell, P.C. Adams, P. Brissot, L.W. Powell, C.Q. Edwards, J.D. Cook, K.V. Kowdley, and the Hemochromatosis Management Working Group</i>		CHALLENGES AND OPPORTUNITIES	
POPULATION-BASED DATA		Public Health Surveillance for Hereditary Hemochromatosis	980
Prevalence of Elevated Serum Transferrin Saturation in Adults in the United States	940	<i>S.F. Wetterhall, M.E. Cogswell, and K.V. Kowdley</i>	
<i>A.C. Looker and C.L. Johnson</i>		Strategies To Increase Detection of Hemochromatosis	987
Hemochromatosis-Associated Mortality in the United States from 1979 to 1992: An Analysis of Multiple-Cause Mortality Data	946	<i>S.M. McDonnell, D.L. Witte, M.E. Cogswell, and R. McIntyre</i>	
<i>Q. Yang, S.M. McDonnell, M.J. Khoury, J. Cono, and R.G. Parrish</i>		Research Priorities in Hereditary Hemochromatosis	993
		<i>G.M. Brittenham, A.L. Franks, and F.R. Rickles</i>	

We would like to thank the following individuals for their contributions to this supplement: James Mendlein, PhD, Epidemiologist, Chronic Disease Nutrition Branch, Division of Nutrition and Physical Activity (DNPA), National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), CDC; Mary E. Cogswell, DrPH, RN, Maternal and Child Nutrition Branch, DNPA, NCCDPHP, CDC; Sharon M. McDonnell, MD, MPH, Maternal and Child Nutrition Branch, DNPA, NCCDPHP, CDC; Adele L. Franks, MD, Associate Director for Science, Office of the Director, DNPA, NCCDPHP, CDC; Muin Khoury, MD, PhD, Director, Office of Genetics and Disease Prevention, CDC; Laurence Grummer-Strawn, PhD, Acting Branch Chief, Maternal and Child Nutrition Branch, DNPA, NCCDPHP, CDC; and Martin Black, MD, Associate Editor, *Annals of Internal Medicine*.

The publication of this supplement was supported by funding from the CDC, Public Health Service, U.S. Department of Health and Human Services.
